News of road & other infrastructure improvement projects in Upper Arlington

FOCUS ON

Henderson Road Reconstruction Project (Sawmill Road to Riverside Drive)

NOTICE OF PUBLIC MEETING

6-7 p.m., Tuesday, February 6, 2018

Municipal Services Center, 3600 Tremont Road

The City of Upper Arlington Engineering Division invites you to a public meeting scheduled for **Tuesday, February 6, from 6–7 p.m.**, relative to the proposed reconstruction work scheduled for your street this year.

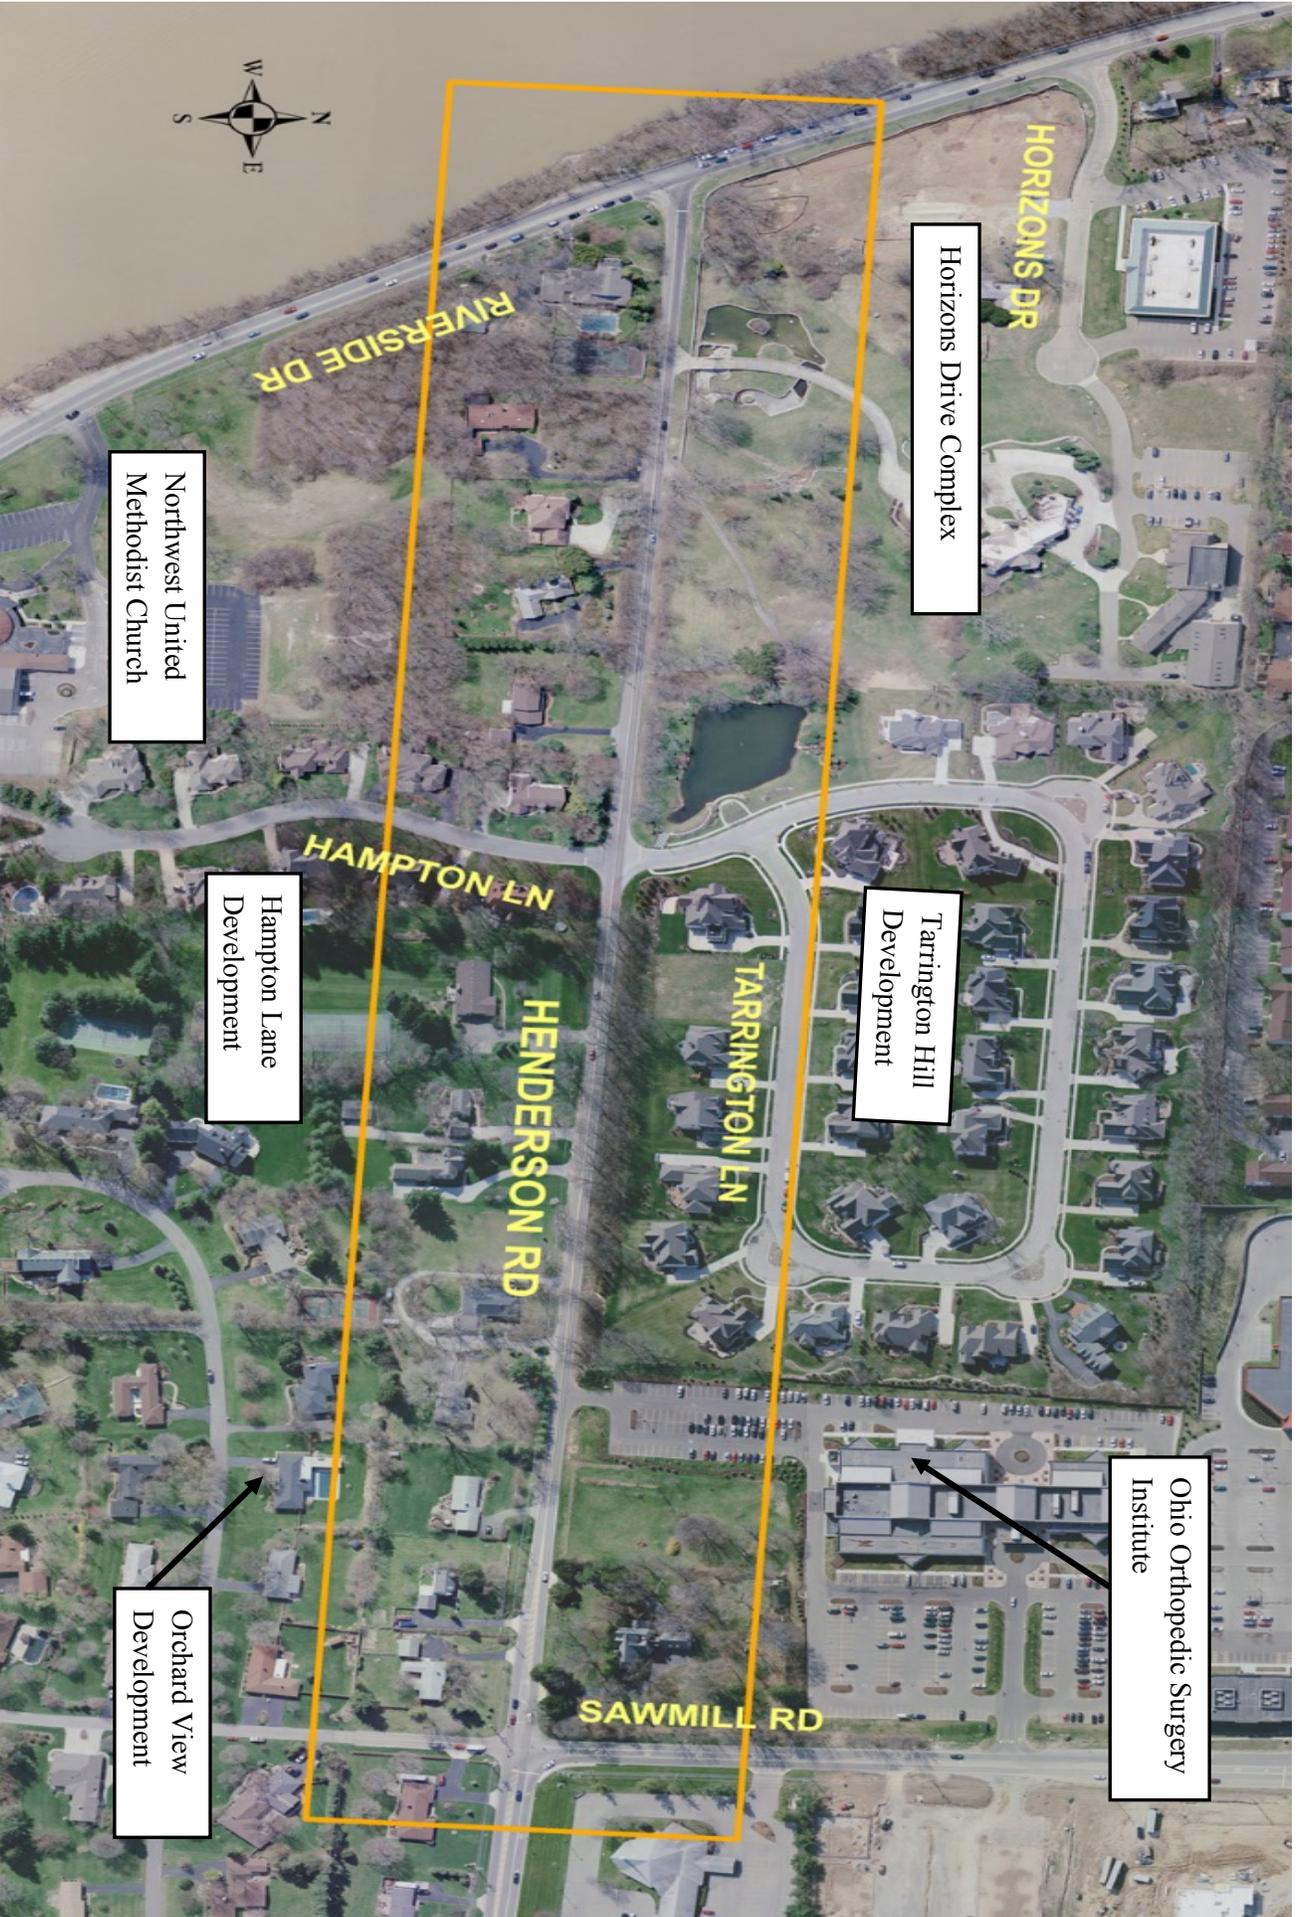

This project includes:

- Creating multi-modal connections in the corridor
- Establish connections to surrounding land uses
- Provide landscape enhancements that also create screening for adjacent properties
- Address existing flooding issues along the corridor with the addition of curb and gutter
- Identify potential improvements to the Riverside Drive and Henderson Road intersection to increase safety.

This project is anticipated to be constructed in 2019 with a cost estimate of \$2.0 million. The two-lane roadway section will be reconstructed with a proposed shared use path on the north side. The project will install new lighting, a tree lawn, new curb and storm sewer pipe, and provide a walk connection along the east side of Sawmill Road from the newly constructed curb ramps at Henderson Road extending north to the existing sidewalk. The safety analysis completed at Riverside Drive and Henderson Road has identified several potential improvements that could increase safety at the intersection. Please see attached map of the project area.

At this Public Meeting, plans will be available for your review, and City staff will be on hand to answer any questions you may have concerning this project. **Please note:** This is not a formal presentation—the session will be set up as an “open house.” Please attend any time between 6 p.m. and 7 p.m.

Property owners unable to attend the meeting can contact Amanda DiSanto at adisanto@uaoh.net or 614-583-5387 to request more information about this project or sign up to receive future notices by mail or email.
